January 4, 2007

Dear TJ

Having worked with the fabulous staff of Breakaway, I am thrilled to work with you once again at all our programs at our resorts in the Dominican Republic. The thousands of students that Breakaway Tours brings to Dominican Republic solidifies you as the number one student tour operator in Canada.

Breakaway Tours and Ahmsa Marina are creating an innovative new approach to the spring break experience.

All our student friendly hotels in Puerto Plata are located in the Playa Dorada Complex or just outside of the party town of Cabarete. These hotels will be home to 1000's of youth from around the world who are into kite boarding, wind surfing and just plain hanging out.

After the sun goes down, the heat goes up. With many open air beach side night clubs the student's nights will be filled with awesome events all week long in a true Caribbean setting. They can learn the meringue, the cha cha then salsa the night away.

Both our on-site staff will be committed to providing excellent customer service while making it a priority to know what's hot on the island. They will have all the hook-ups for the best dance clubs and bars, as well as a myriad of excursions. These include jeep safaris, dolphin encounters, party cruises, paintball, horse back riding and more

All non-motorized water sports are included at the resorts, with many other optional activities such as banana boat, parasailing, kite boarding, kayaking, snorkeling...get a scuba diving lesson too!

Our beaches are pristine - that means turquoise and tranquil. Lay back and watch the world go by...you will meet people from everywhere! Check out a hammock and swing the day away... while enjoying your super inclusive experience.

You will never go hungry - tons of variety and great taste. Whether you want to try out the authentic Dominican fare...or are happy with burgers and fries - just help yourself whenever you want.

Looking forward to growing our partnership and making the Dominican Republic the place to be on Spring Break.

Yours truly,

Todd L. Kirlik
