

“This was my second year working with Breakaway Tours and I plan on staying involved with them for many more. They are by far, the best student travel agency around.”

Marlene

Re: Reference Letter for Breakaway Tours

Campus Living Centres Inc. and Breakaway Tours formed a relationship in 1998. This partnership has grown and evolved throughout the years based on the constant change of student needs. Both Campus Living Centres, Breakaway Tours and College/University students have benefited.

It has been a pleasure to deal with Breakaway Tours. They have conducted themselves professionally and offered numerous benefits to our partnership. The staff have made themselves available upon the request of Campus Living Centres for many functions.

Breakaway Tours benefited in the following ways:

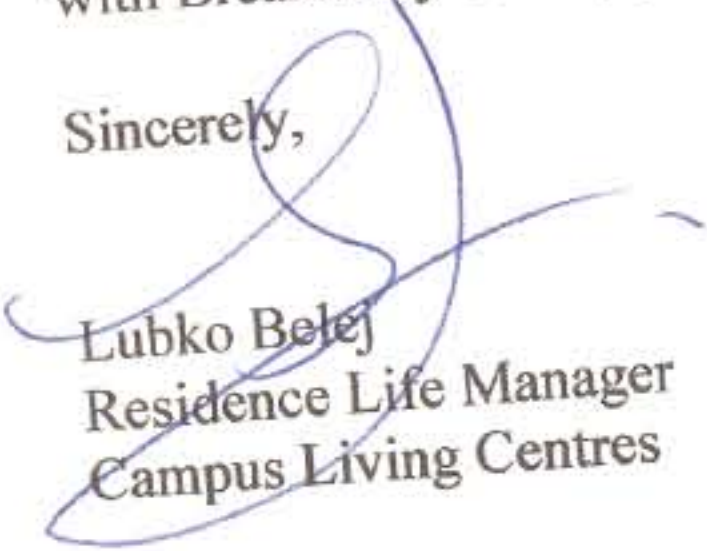

- Students at Residence and Conference Centres, managed by Campus Living Centres, have the opportunity to make travel arrangements using Breakaway Tours knowing the company's reputation.
- All Residence and Conference Centres' buildings received a visit from a Breakaway Tours rep to answer questions and be available for trip promotions and bookings
- Campus Living Centres' staff has been given information so they can answer questions about Breakaway Tours
- Campus Living Centres has enabled Breakaway Tours to post advertisements throughout the residences and in the student handbook

Campus Living Centres Inc. benefited in the following ways:

- Breakaway Tours provides Campus Living Centres Inc. with the opportunity to offer more off campus events for students
- Breakaway Tours has made arrangements for a trip for two as our Grand Prize during the move in and move out student resident satisfaction survey
- Every year we can count on their support and sponsorship during our Residence Life Staff Conference

If you require any further information about Campus Living Centres Inc. or our relationship with Breakaway Tours, please do not hesitate to contact our Residence Life department.

Sincerely,

Lubko Belej
Residence Life Manager
